

## Press Release

**Patna, March 12.** The Centre for Environment, Energy and Climate Change (CEECC), ADRI, ENVIS (RP) in collaboration with the Tarumitra, has launched a Green Skill Development Programme (GSDP) on “Effluent Treatment Plant (ETP), Sewerage Treatment Plant (STP), Common Effluent Treatment Plant (CETP): Operations and Maintenance.” An inaugural cum orientation function was organised at Tarumitra Campus. Professor Ashok Kumar Ghosh, Chairman BSPCB was the Chief Guest on the occasion. The function was graced by the presence of Professor Prabhat P Ghosh, Director, ADRI and Father Tony Pandanath SJ, Director, Tarumitra.

It will be an NSQF Level-4 Certified training programme and consists of 150 hours of interdisciplinary classroom sessions, field training, exposure visits and a series of special lectures. The trainees of this programme are from diverse educational, professional and geographical backgrounds. The 30 days’ training programme will be organised under the mentorship of faculties from reputed academic institutions like- IIT Patna, NIT Patna, A N College. The broader objective of this programme is to equip individuals with procedural knowledge about wastewater treatment, plant operations and maintenance.
